- ✓ INVISIBLE AFTER APPLICATION
- ✓ NON-TOXIC
- ✓ WATER-BASED

# PROSTONE

NeroQom Prostone is a unique protection **for** your facade, **against** UV, moisture, oil, pollution and graffiti.

NeroQom Prostone is safe to apply on many stones.

## Why do the best choose NeroQom Prostone?

Design, detailing and the influence of the other materials in facades determine the technical and aesthetic degradation.

Unlike other products, our complex and innovative formula gives your facades real protection and keeps your building clean, for longer.

NeroQom ProStone is tested by:

- ✓ ICCROM\*
- ✓ CEPTB & CRITT France
- ✓ AATCC-118-1997
- ✓ Oil Repellency Hydrocarbon Resistance Test Method
- ✓ IPA Water Method Dupont

\* **ICCROM** (International Centre for the Study of the Preservation and Restoration of Cultural Property) is an intergovernmental organisation dedicated to the preservation of cultural heritage worldwide through training, information, research, cooperation and advocacy programmes. The creation of the Centre took place as a result of a proposal at the UNESCO General Conference held in New Delhi, in 1956.

✓	Apply under low pressure.
✓	Apply on a vertical surface, in two immediately successive layers, wet-on-wet.
✗	Do not apply during rain or frost

NeroQom ProStone offers a quick return on investment and is the best solution against graffiti, against moisture and when facades quickly become contaminated by mosses and algae.

**Beware**, know the disadvantages of many alternatives. Facades are only protected for years if impregnated correctly.
